## GENERAL SAFETY RULES:

1. Read all directions for an experiment and follow the directions exactly as they are written. If in doubt, ask the lab assistant
2. Never perform experiments that not authorized by lab assistant. Always obtain permission before experimenting on your own.
3. Never handle any equipment unless you have specific permission.
4. Take care not to spill any materials in the lab. If a spill occurs, ask lab assistant immediately about the proper clean-up procedure.
5. Dispose of all material according to the lab assistant's instructions. Never empty materials into the sink or trash can.
6. Never eat in the laboratory. Wash your hands before and after each experiment.
7. Never horse play or run in the laboratory.
8. Know the location and function of all laboratory safety equipment.
